

INTERNATIONAL FAIR

CULTURE MIX

Months before the event, middle school language students worked hard in planning, building, and creating special activity “booths” that would be featured at the 2010 Middle School International Fair! The fair was an assimilation of the Korean, Chinese, and Spanish classes. Students prepared foods that represented their language’s culture such as Korean rice cakes and Spanish tortillas. Hours before the fair even started on April 23, students were busily preparing their booths with the finishing touches. And even before Ms. Lu announced that the festival would start, elementary school kids of all ages started to flood into the G Building Conference Hall!

The festival had officially begun. There was so much food, fun, and games for everyone to enjoy! This special occasion was such a blast, and we hope next year’s International Fair will be just as fun. Students and teachers of all ages had a good time and everything ran smoothly. One of the most popular booths was the “Piñata”.

¡Esperamos que hayan tenido buen tiempo! We hope everyone had a great time!

We don’t have only the students to thank for this wonderful festival, we must also thank the wonderful language teachers -- Ms. Lu, Ms. Bray, and Ms. Plouffe for their efforts into organizing one of the best events of the whole school year! ~ SoYoon Kim, Rachel Kim, Rebeca Yun
